

# OUR PROCESS:

1. Upon receipt of an order we provide confirmation within one business day.
2. Our engineering department reviews the drawing or sample part provided. State of the art software is used to create a CAD model.
3. Drawings are generated and reviewed with you to ensure the design is to your individual specifications.
4. After design confirmation is complete, one of our certified Journeyman Machinists manipulates the solid model created by our Engineers and generates the machine movements required to manufacture your components.
5. 100% of your parts are fully inspected by our Quality Control department before shipping.

*Precision Machinery understands the trust our customers place in us. We take great pride in producing only the highest quality products. You can rely on Precision as your peace of mind supplier knowing your facilities production and profitability are our priority.*

## YOUR ONE-STOP MANUFACTURING SOLUTION

Concept to Design.  
Design to Manufacturing.  
Manufacturing to Installation.

# PRECISION MACHINING

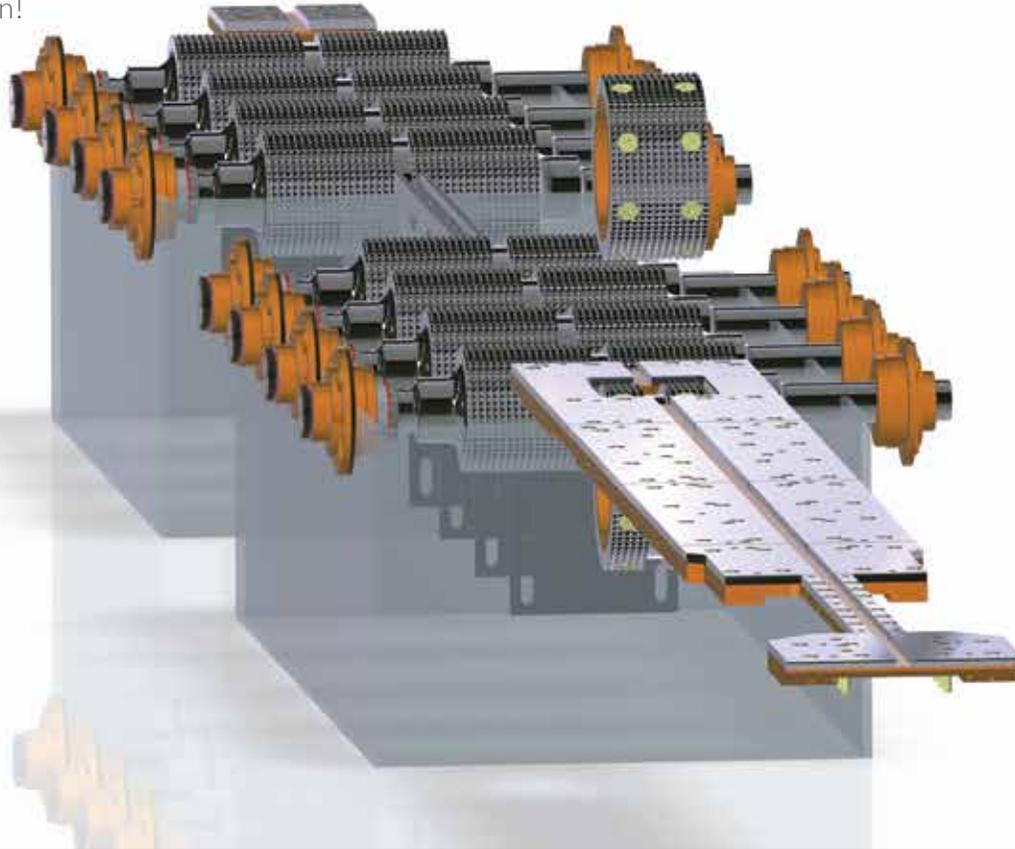

MANUFACTURING  
EVOLVED

# MACHINING EXPERTISE

You expect components to be produced with the highest accuracy obtainable.

We know that, and use the latest in CAD/CAM software together with fully automated CNC equipment. Machining a part directly from the 3D model eliminates mistakes between design and production. This ensures that not only is your part made right the first time, but time and time again!

# PROJECT MANAGEMENT

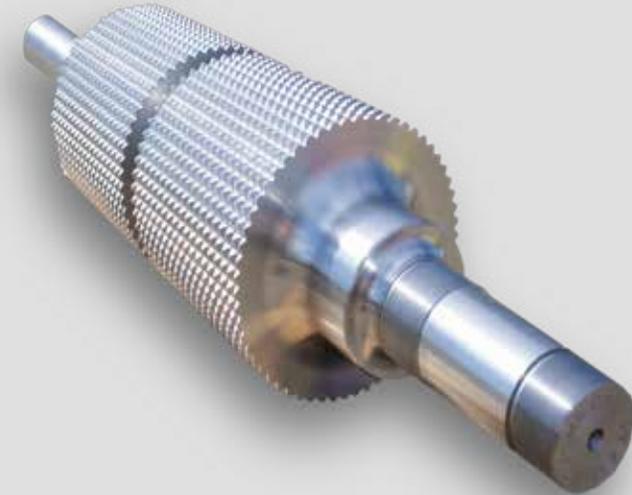

Precision Machinery is your start to finish manufacturing solution. We have the ability and experience required to manage your entire project from start to finish.

Customer service and satisfaction are our highest priority. We'll ensure the delivery you need, the experience you require, and the precision you crave.

# RESEARCH & DEVELOPMENT

Precision has the software, ability and raw knowledge necessary to create new products.

We understand how important your innovative ideas are, and guarantee strict confidentiality. Your investment and success are important to us, and we do everything possible to ensure you and your company's protection. Our development process is proven, reliable and secure.
