

THE PRECISION GUIDE DRESSER WILL REVOLUTIONIZE YOUR FILING ROOM

INCREASE PRODUCTION

With the fastest cycle time in the industry, the Precision CNC Guide Dresser will accurately surface a guide in as little as 14 seconds.

ACCURACY

The unique design and set up of this machine provides unsurpassed accuracy. Maintaining tight tolerances will be simplified.

SAFETY

The Precision CNC Guide Dresser eliminates risks associated with older machines. Staff no longer work close to exposed and/or rotating cutter heads.

REDUCED COSTS

One machine will process all the guides in your mill. Due to fast cycle and load times our customers have reduced man-hours spent on guides by as much as 8 hours/day. Additionally, cutters are a fraction of the cost of conventional machines.

ASK US ABOUT OUR:

- Precision Circular Saw Guides
- Premium Babbitt Molds
- Adjustable (Alignment) Guide Stack Systems
- All of your machining needs

PRECISION MACHINERY

CNC GUIDE DRESSER

TOUCH-SCREEN INTERFACE

A simple touch screen interface maintains accurate targets. Precision's SAFECUT technology ensures the right guide and the right setting, every time.

FACE MILLS

Multiple insert face mills are available in two sizes to ensure the demands of your operation are met. Indexable carbide inserts are readily available and can be easily rotated up to four times if worn or damaged. No timely setup is required.

CNC MACHINE SPINDLES

Powerful motors drive high speed, high precision CNC milling machine spindles. These motors will provide long life and service from your machine.

ALL YOUR GUIDES IN ONE MACHINE

Mounting systems are custom engineered for your mill. ALL your guides can be processed with one machine. Our FAST-SETUP design allows operators to quickly change between guide profiles and store up to ninety customized guide settings with our standard package.

SLIDES

Precision ground slides are adjustable in increments down to 0.0002". Operators can fine tune guides with extreme precision in seconds.

GRANITE MACHINE BASE

The Precision CNC Guide Dresser has a unique base that guarantees the machine will cut with unparalleled accuracy, regardless of environmental changes around it.

THREE POINT FRAME

Designed to ensure machine stability on any floor.
